## NORTH EAST TOUR 2013

Massachusetts based instrumental rockers, Pray for Sound, are preparing to set out on their first North East United States tour, starting August 21<sup>st</sup>. With emotional music inspired by their guitarist's struggle with hearing loss, this five-piece band came together in late 2012 to create an intense live experience with a huge sound and an intricate light show. After releasing their debut EP, *Monophonic*, and single, *23:55*, the band is ready to showcase both new and old material to spread their name and music.
